

RISK ASSESSMENT – DAY 1 ACTIVITIES

Sunday 8th October 2023

COUNTRY:	ASSESSMENT DATE:	WRITTEN BY:	REVIEWED BY:
Kenya		Mr Omasire	Mr Kimwele

NATURE OF RISK	ASSESSMENT OF RISK	ADVANCE ACTION / CAUTIONS	ACTION IN EVENT OF INCIDENT
Security	Low	CCTV and 24-hour security is provided. The school compound has an electric perimeter fence	24-hour security to be provided during the conference.
Medical Emergency	Low	First aid provision at the venue. An Ambulance will be on standby for emergencies.	First aid staff will be available to attend to minor incidents and the ambulance to evacuate serious casualties
Animal ride: camels, horses	Low	Contingency measures in place to prevent falling off the animals due unexpected animal behaviour	Riders to be provided with clear instructions on how to handle the animals, including mounting and dismounting procedures, holding reins, and responding to animal behaviour. A handler will present at all times.
Cultural – village life, cows, goats, and food sampling stalls	Low	Food safety and handling in the stalls. Unexpected animal behaviour	Health and safety protocols in place for food preparation and consumption. Animal handlers will be present at all times.
Hot air balloon (permanently tethered)	Low	Monitoring the wind and weather conditions leading to balloon instability.	The tethering system will be robust and regularly inspected. Burners and inflation systems will be well maintained. The weather conditions will be monitored continuously.
Interactive art (creating a mural using beads and pebbles, block printing t-shirts)	Low	Participants will be trained on the use of non-toxic paint, pebbles, adhesives and block printing. Smooth beads and pebbles will be used for the activity.	Art teachers will supervise the activity and provide safety guidelines to participants. First aid kits and medical personnel on standby.
Slips, Trips and Falls (Sports and field activities)	Low	Mitigating the risk of injuries arising from slips, trips and falls during the sports activities	A thorough inspection to be undertaken of the field prior to the fair with findings and resulting remedial actions recorded.
Music and dance	Low	Weather and environmental risk measures. Electrical issues and fire safety.	Weather conditions to be monitored continuously. The stage will be free of hazards
